NEW RECREATION OF DALY CITY IS NOW REALITY

New Activities Are Being Developed And Others Will Soon Be Added

While the skiing and skating in California is confined to the Truckee and other mountain regions, Daly City boys and girls are out on their roller skates during the holiday season.

Roller skate hockey, introduced in San Mateo last winter by Arthur Ryan, County Director of Recreation for the San Mateo County Recreation Projects, is to be started here on Friday, when Adolf Fisher, of the Daly City WPA Recreation Project, will coach several teams of boys at the Vista Grande Park. The paved upper area of the park will be used for this purpose.

Fisher is also preparing to coach several soccer teams for the various sections of Daly City.

Mr. Fisher, who frequently referees games for the California Football Association, has had much experience in developing teams at this sport, and comes to us as an experienced soccer and hockey player, having been for several years center forward and center half for one of the European championship teams. He has also achieved some reputation for coaching, as several of the junior championship teams of the Bay region have been trained under his direction.

Art needlecraft, under the direction of Mrs. Lela Campbell, will soon claim the attention of the young girls, older girls and mothers of Daly City. Mrs. Campbell is preparing a display to be seen in the near future in one of our local stores, and will make arrangements for participation of any individuals or groups interested in this form of pastime.

These activities are the beginning of the Daly City Recreational Program and will be added to and expanded as facilities and leaders become available.

MORE FUNDS ARE NECESSARY TO COMPLETE WORK

Plan To Give Tuberculin Tests In High Schools Will Be Hampered Unless Final Goal Is Reached

Although returns from Christmas Seal sales have been far greater this year than last, more funds are needed if the full program of the San Mateo County Tuberculosis and Health Association is to be carried out in 1938, Mrs. Ruth Close, executive secretary, declared today following a checkup on returns.

So far, approximately 16,000 of the 29,377 letters sent out have been returned, some with money, some with the stamps. But because a large percentage of the envelopes containing money have less than a dollar, the association is still far short of the $10,000 it had been hoped to raise.

STREET PAVING IS ORDERED BY CITY COUNCIL

Permanent Improvement To Be Made On Templeton Avenue "Clear Around The Circle"

Wednesday evening of this week the Daly City Council met in adjourned session. After disposing of other matters of business the proposal to improve Templeton avenue was taken up.

The cost of this improvement, the street being in the list of streets of major importance, is to be paid for by funds derived from state gas tax monies allocated to this city.

This improvement proposal has

DID SOMEBODY SAY HARMONY? WE GUESS NOT!

Contest Over Purchasing Agent Job Fast Approaching Comic Strip Stage

When the present County Board of Supervisors was organized a year ago, the keynote of the organization was declared to be "harmony." The air was permeated by loud protestations of each member that he would strive continually to promote harmony and good will among members of the board and other county employees, as well as the citizens of all sections of the political subdivision.

Very soon after these declarations differences cropped up from every angle over various actions of the board and harmony soon was a lost watchword.

The latest development along the line of inharmony is in connection with the unseemly attempt to "centralize power" and oust one of the principal county appointive officials from his job by consolidating the position with the functions of the county manager, who seems to be (at whose behest no one knows) attempting to "take in a lot of territory."

According to reports the county purchasing agent row nearly precipitated a clash between County Executive Rolison and Superior Judge McNutt on Tuesday.

Executive Rolison aroused the ire of the court when he sought to take over the court reporter's room adjacent to his office to house the reorganized county purchasing department.

Judge McNutt warned the executive that he would order the sheriff to evict him if the court reporter were disturbed. It ended with Rolison paying his first formal visit to the judge's chambers this morning, where he informed the jurist that he had no desire to annex the reporter's room.

It was learned that the executive informed William Girvin, Judge McNutt's reporter, that he was crowded

UNEMPLOYMENT COMPENSATION NOW AVAILABLE

Claims Can Be Registered As Soon As Applications Are Received At The State Office

Unemployment compensation cliams may be filed immediately in 62 offices of the California State Employment Service.

This announcement followed distribution of compensation registration forms to the offices in preparation for January 3, first day on which claims will be valid.

"As long as the forms are in the offices," it was stated, "we can start registering claims at the present time, and avoid a certain amount of congestion in the offices January 3. All claims filed between now and the first of the year will be dated January 3, when the waiting period for benefits begins."

Employment service offices now are situated to handle not only orders from employers for qualified workers, and applications for employment, but also compensation claims under the Unemployment Reserves Act.

Provisions of the act require payment of benefits to both totally and partially unemployed workers who are eligible to receive the same.

All applicants residing in San Mateo County should file their claims with the California State Employment Service office at 15 "B" street, San Mateo, Calif.

Noted Specialist Succumbs At Home

Suffering from a heart attack, according to attending physicians, Dr. Lawrason Brown, aged 66, died at his home at Saranac Lake, N. Y., last Sunday.

For many years Doctor Brown was one of this country's leading tuberculosis specialists.

With a rousing fanfare, old Father Time makes his departure with a bow and a scrape. And to the jubilant strains of horns and whistles, a little mite of a fellow comes toddling out to take the limelight in front of the whole world.

Celebrants who toast this mite sized stranger on the stroke of midnight, December 31, may observe a strange thing about him. He seems to have a slight resemblance to the toddling youngster who showed up last year at this very same moment.

But let no one be deceived! The resemblance is wholly imaginary. The name of this little fellow, despite his extreme youth, is Father Time(edition of 1938. And Father Time is very chary of giving away any secrets in advance.

We do know that he can be counted upon to be as prankish as a colt, as jolly as a three year old, as full of surprises as a Jack in the box.

And that's reason enough for establishing ourselves on friendly terms with this young New Year. One good resolution—well kept!—helps do it. The resolution must be important enough to be worth our while keeping, but not so impossible that it will be soon tattered and forgotten. Only Father Time himself can supply the best answer to that poser which greets us every year.

There go the whistles—the stage is set! It's farewell to old Father Time, and hail to the New Year! Take it away, 1938—and a Happy New Year to everyone!

TIRE BLOWOUT KILLS COUPLE

Otto Schramm of Beta street and William Bolger attended the funeral, Monday morning of this week, of Mr. and Mrs. Miles A. Sharkey of Redwood City, who were killed, Friday of last week, when their automobile blew a front tire as they were en route to Salinas to visit relatives over the holidays.

NEW GRAND JURY WAS IMPANELED ON WEDNESDAY

In order to comply fully with the civil code requirements, the county grand jury for 1938 was impaneled and sworn in, Wednesday of this week, by Superior Court Judge Maxwell McNutt. The time was at first set for January 5, but was later reset.

Superior Court Judge A. R. Cotton will charge the jury when he returns from Mills Hospital, where he has been ill for several weeks past.

The panel includes many prominent civic leaders and business men from all sections of the county.

Word from the hospital indicated that Judge Cotton's condition grows "progressively better," and he may be expected to return to the bench within two or three weeks.

DRINKING AND DRIVING DON'T GO TOGETHER

An Eastern judge had an unusual case the other day. A man literally arrested himself—took himself into court—conducted the prosecution—and asked to be put in jail—to keep him from drinking. The judge complied with his request and sent him away for 110 days.

It would not be such a bad idea if a lot of our motorists who mix drinking and driving would do the same thing. It is a certainty our streets and highways would be much safer for sober drivers and pedestrians.

The National Safety Council lists drunken driving as one of the principal causes of traffic accidents. A tipsy driver with a high powered car is potentially as dangerous as a gangster with an itchy trigger finger. If you drink, don't drive—if you drive, don't drink!—San Mateo County Traffic Safety Commission.

FOUND DEAD IN BED

Mrs. Mary Lybecker, aged 77, a resident of Sutter County for 55 years, was found dead in bed beside her bedridden husband, Christmas Day, at the family home in Sutter City.

The couple had recently celebrated their fiftieth wedding anniversary.

TWO INJURED IN TWO CAR CRASH

Two persons were injured in a Christmas Eve two car accident at El Camino Real and Junipero Serra boulevard, near Lawndale, according to a highway patrol report.

Helen Ashworth, 22, 30 North Claremont street, San Mateo, and Leona Barhtley, 46, 1810 Palm avenue, also of San Mateo, driver of one car, were treated at Villa Sanitarium, Colma, for cuts and bruises.

The operator of the other machine, Robert Silgel, of San Francisco, was not hurt.

Successful Joint Christmas Party

The annual Christmas party given by Daly City Unit No. 410 and Daly City Post No. 410, American Legion, was very successful. Those present enjoyed a program and social evening. Those not present were remembered in their homes. Baskets of food and toys were distributed to many.

Wednesday evening of this week several members accompanied the District drill team to Palo Alto Hospital, where entertainment and dancing was furnished for the Veterans.

New Year Day the Colors will be carried in the military pageant in Kezar Stadium at the East-West football game.

The next regular meeting will be held Wednesday evening of next week. Arrangements will be made for the coming class initiation, which will be held January 19.

OUR COUNCIL HAS APPROPRIATED MONEY TO BUY PLAYGROUNDS

Unanimously Agred To Complete Plans By Making Purchase Price At Once Available

At an adjourned session of the city council, Wednesday evening of this week, a resolution was adopted to complete the purchase of a plot of eight lots at Acton and Brunswick streets for use as a playground site.

The necessary sum of $6000 was made immediately available by the appropriation of the needed amount from the general fund in the city treasury.

The action of the members of the council was unanimous, there appearing to be no difference of opinion as to the necessity of prompt action on the matter.

This property is described as Lot 132 as designated on the "Map of the Property of the West End Home Association," and is being sold to the city by its present owners, Mary Logue, Louis Oberhaus and Alfred Oberhaus.

Progress should stand as the keynote of any community and one of the first accomplishments looking toward that progress should be the acquiring of land for the purpose of developing our recreational facilities and the improvement of present acreage owned by the city for the same purposes.

It is proposed to put the newly acquired property into condition to permit of the development of a rec-

SEEMS VEXING IS GOOD DISH FOR NEEDED OUT

According To Report Nobody Seems To Know Just Where Anybody Or Anything "Is At"

It would appear from recent developments that some of our good citizens are not entirely "satisfied with the commission's program," regarding contemplated activities in connection with the San Mateo County Floral Fiesta.

Mr. and Mrs. Samuel Knight of Burlingame (and also a very large number of other citizens in all parts of the county) are strenuously opposed to the horse racing proposal of the supervisors and the fiesta commission.

Some time ago, Knight, prominent attorney, wrote the supervisors a letter of protest. This letter was before the board, at its December 21 meeting, but the supervisors did not take action thereon because it bore a pencilled note from Supervisor Fred E. Beer that the Knights had been contacted by the commission and were "satisfied with the program."

When questioned Tuesday as to the authenticity of the statement, Supervisor Beer said that this was the information given him by Bruce Gibson of San Mateo, president of the fiesta commission.

One of our down county contemporaries says that when Gibson was queried on the apparent contradiction which Beer laid to "a misunderstanding," refused any comment on the matter and was openly vexed

War On Lawless Is Now On In Earnest

At Hollandale, Miss., last Sunday, Mayor E. W. Scott issued a proclamation urging every able bodied citizen "to take up arms" to check an epidemic of robberies in that community.

"I do hereby deputize every law-abiding citizen in this town of Hollandale to carry a pistol for his own protection," the proclamation read. "When you find a sneak thief in or around your home, shoot to kill. We must break up this stealing, regardless of the cost."

Nothing succeeds like success, is an old adage and to be successful committees must be progressive and reach out to develop those projects which will tend to advance the spiritual and moral, as well as physical welfare of the citizens at large.

When we have better parks and playgrounds for our children, we show the community is progressive and many families will be attracted to make their homes in Daly City.

COUNCIL ORDERS STREET PAVING

been under consideration by the council for some time.

The assistant city engineer presented a project statement, which, when duly signed and delivered, will permit acquisition of these funds from the state. It is the intention to proceed with this work as soon as possible.

The improvement will result in the construction of a permanent pavement from the end of the present established paving on Templeton at Hanover to extend "clear around the circle" to Crocker avenue on the other side of the tract.

The vote on the proposition was not unanimous, as some misunderstanding seemed to exist as to what was at first intended as to whether a temporary job could be done at lesser cost or whether the entire sum of accumulated gas tax money should be used on this project.

It was explained by the assistant engineer that it would not be possible to obtain money from the gas tax source unless the paving improvement for which it was sought was made of a permanent nature.

Councilmen Fahey and Cavagnero were of the opinion it was unwise to use such a large amount of money on one project and voted against the proposal.

However, the motion to adopt the resolution making the improvement possible prevailed by the affirmative vote of Councilmen Truester, Sundermann and Selmi. The three latter stating it as their belief and judgment that it was better to use the funds now accumulated and laying dormant at Sacramento, than to allow further time to elapse before using them for the improvement of our streets of major importance.

The motion to authorize Mayor Selmi to sign the project statement providing for this work was carried by the same vote as the previous proposal.

Church Officers Feted By Pastor

Rev. and Mrs. A. A. Mitchell of the Grace Presbyterian Church gave a buffet supper to the officers of the church and their wives and husbands, Wednesday evening of this week, at 6:30.

Everyone enjoyed the supper immensely and had a very enjoyable time indulging in the playing of games of various kinds.

The affair will not be forgotten for a long time by all who participated.

Ordinance No. 213

AN ORDINANCE PROVIDING FOR THE CONTROL AND ERADICATION OF RABIES IN THE CITY OF DALY CITY, FOR THE DESTRUCTION OF UNVACCINATED DOGS RUNNING AT LARGE, AND PRESCRIBING A PENALTY FOR THE VIOLATION OF ITS PROVISIONS.

The City Council of the City of Daly City does ordain as follows:

SECTION 1. It shall be unlawful for any person owning, having an interest in, harboring, or having the care, charge, custody, or possession of a dog to allow or permit such dog to go free and run at large on the public streets in any manner or to go free and run at large in or upon any place in the City of Daly City, unless such dog has been vaccinated with canine rabies vaccine—one injection or other approved method—within a period of twelve (12) months, and is officially tagged as provided in section 2 hereof.

Section 2. Said vaccinations shall be performed by any duly qualified and licensed physician or veterinarian. The persons vaccinating said dog shall issue certificates of vaccination on blanks furnished by the City. Every person owning, having custody or control of any dog so vaccinated shall present said certificate of vaccination to the health officer, who shall issue an official vaccination tag which shall be securely fastened to a collar, which collar must at all times be worn by such vaccinated dog. It shall be unlawful to attach an official vaccination tag to any dog unless the same has been duly vaccinated as herein provided.

Section 3. The chief of police, any officer of the police department, pound keeper, and also any person employed for that purpose by the City of Daly City must and they are hereby authorized and empowered to capture any dog not vaccinated as required by this ordinance which is found going free and running at large in or upon any place within the City and such officer or person shall be authorized and empowered to immediately kill and destroy such dog.

Section 4. Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not to exceed Three Hundred ($300.00) Dollars or by imprisonment in the county jail for a period of not more than three (3) months or by both such fine and imprisonment.

Section 5. This ordinance is hereby declared to be an emergency ordinance and shall take effect and be in force from and after its passage, the facts constituting the emergency being as follows: the discovery of two (2) cases of rabies within the City of Daly City.

Section 6. Notice of the passage of this ordinance shall be given to every house of Daly City in the form of a hand bill. This ordinance shall likewise be published once in the "Daly City Record" a newspaper published weekly in said City of Daly City, California.

Introduced this 22nd day of December, 1937. Passed and adopted as an emergency ordinance of the City of Daly City, California, at a regular meeting of the City Council of Daly City held the 27th day of December, 1937, by the following vote, to wit:

Ayes, and in favor thereof, Councilmen: Cavagnaro, Sundermann, Twesten, Fahey, Selmi.

Noes, Councilmen: None.

Absent, Councilmen: None.

PAUL G. SELMI,
Mayor of the City of Daly City.

Contest Over Purchasing Agent Job Fast Approaching Comic Strip Stage

for space and would like to acquire Girvin's office, which the latter shares with Judge Cotton's reporter, Fred Wyckoff. He promised to find new quarters for the reporters elsewhere in the courthouse.

Girvin went to the judge for instructions. Judge McNutt dispatched his court clerk, Homer Hargrave, to the county executive with the information that the court reporter is an adjunct of the superior court and that, if the reporter were disturbed, the sheriff would be called to evict the executive.

Later, Rolison expressed regrets that he had not taken the matter up with the court in the first place.

Meanwhile, Acting County Controller George Filbert threatened to tie up the county's purchasing system by refusing to approve any claims during the present row between Rolison and Stanley Kelly, who is fighting to keep the purchasing agent's job.

"I don't know that I should recognize claims approved by either of these gentlemen," Filbert said today. "I have no assurance that either is right in the present dispute."

Filbert said he was of a mind to withhold approval of purchasing orders and payment of claims until there has been a court adjudication. He planned to confer with the district attorney's office this afternoon.

Rolison's orders to department heads said, in part:

"The office of the purchasing agent is now consolidated with that of the county executive, and in the future all purchase orders will be signed by myself.

"In the future the purchasing agent will make all purchases and all purchase orders will have to be approved for funds by the controller. The new ordinance does not provide for confirming orders."

The new purchasing department is now quartered in Executive Rolison's outer office on the second floor of the county courthouse. Kelly's former deputy, Miss Elinore Tobin of Burlingame, now chief deputy purchasing agent under Rolison, was in charge. Her assistant was Miss Genevieve Ward, daughter of Burlingame's Councilman Al Ward.

In spite of the fact that he has no established office any more, Kelly maintains he is still the county purchasing agent. It is understood he plans court action in an effort to retain his position.

He has employed Attorney John E. Manders to look after his interests in the battle of wits.

In discussing the controversy, the attorney is reported to have declared in referring to the county executive and the Board of Supervisors: "They remind me of the Japanese, nothing but apologies. They won't do anything in the open."

The kind of "harmony" now being practiced does not, apparently portend good results which would be to the best interests of the citizens of San Mateo county.

Alabama's "Crimson Tide" All Set For New Year's Day Classic In Rose Bowl

Considered by many to be the most formidable team in years to invade the Pasadena, Cal., Rose Bowl, the Alabama "Crimson Tide" is pictured as practice games got under way at Occidental College near Los Angeles. The New Year's Day classic will test the strength of the California Golden Bears, who went through the last season undefeated. Left to right are the Alabama players (front): Perron Shoemaker, right end; Jim Riba, right tackle; Lou Bostick, right guard; Jack Natchoff, center; LeRoy Monsky, left guard; Walter Merrill, left tackle; Tut Warren, left end. Back row, left to right, are George Zivich, right half; Charles Holm, fullback; Joe Kilgrown, left half, and Henry Cochran, quarterback.

at what he termed newspapers' "unwillingness" to understand the issues involved.

We believe the "newspapers" have a thorough understanding of the issues involved, but do not seem to have the heart to express themselves freely on the subject. This may be as well, as these kinds of controversies at times become unpleasant and may annoy someone or several.

In the face of the "satisfied with the program" assertion, a recent letter from Mr. Knight to a San Mateo County newspaper says:

"I wish to state categorically that neither my wife nor myself agreed to the program of the fiesta commission . . . and I emphatically stated to Mr. Gibson (Fiesta commission head) that we were opposed to an additional 14 days' racing in San Mateo county and were thoroughly in sympathy with the protests that were being filed with the racing board against that program."

When the floral fiesta was first proposed, the citizens were informed that the affair was to be a sort of cultural display and that through the immense amount of advertising received therefrom, the county agriculturists and horticulturists would greatly benefit by the display of San Mateo county's fruits, vegetables and flowers. Now it would appear, that "money grabbing" is the principal object in "enlarging" its scope of activity.

The majority of our citizens, it appears, would greatly prefer to have our County Floral and Agricultural Fiesta remain just that, rather than have it thrown into the category of an exhibition approaching the "circus variety."

Garden Reaches Meadows Of Sky

The Rev. Silvester Horne was fond of telling his class of the thoughts that came to him in his garden. So inspiring were these thoughts and so great were the vistas they opened to the imagination, that all his pupils desired to see the place where he enjoyed his meditations.

Finally two of the boys found some pretext to visit the professor's study, and were invited into his garden. Imagine their astonishment when they discovered it to be a narrow, nondescript strip of land shut in by high walls!

"Why, Doctor," one of the lads exclaimed, "surely this is not the garden where all of your fine thoughts came."

"Oh, yes," answered Mr. Horne.

"But it is so small!" the boy protested.

"But," said the professor, pointing to the star-studded sky, "look how high it is."

WEEK'S SHOW OF VAUDEVILLE AND MUSICAL COMEDY

Colorful Performances To Be Staged Under Direction Of Well Known Producer

Musical comedy vaudeville, twenty-seven fast moving acts of it, will form the program which the Federal Theater Project will ring out the old year and welcome the new. Vaudeville stars from the principal Pacific Coast units of the Federal Theaters will be brought to San Francisco for the six special performances which begin New Years Eve.

The show is under the direction of Max Dill, well known throughout the country for his direction and production of many musicals in former years. Nearly 100 performers will appear on the stage. A special midnight performance will be staged New Years Eve following the opening performance at 8:30.

"Every act is new," Dill said yesterday following the final rehearsal. "It's all new. New steps, solo and ensemble, by the dancers; new comedy with all new gags, new stage settings, new songs written especially for this production, and all set to go in rapid fire order."

The performance was designed to end the old year and start the new with a burst of hilarity such as has never been seen on a vaudeville or a musical comedy stage in San Francisco.

Following the last performance of the musical comedy vaudeville next Sunday night the Alcazar will be dark until Friday, when the premiere of Fulton Oursler's laugh riot, "Nude With Pineapple," will open.

A SHAVE FOR SANTA?

No longer ago than frandfather's time, whiskers made the man!

Even the most dapper lady's man, with glistening pomaded hair and burnished patent leather shoes, nearly always sported the virile adornment of a smartly tailored moustache and a swathe of sideburns.

But since the turn of this century it has been definitely "Goodbye to all that!"

Yet we have always been able to believe there was a certain unchangeableness in the flow of time and tide, because—his face unflinchingly set against this era of smooth-shaven men—old Santa Claus kept to his handsome folage of snowy white beard.

That streaming cascade of wavy whiskers gives to the merry old gentleman an undeniable dignity and charm. Without it, he—well, he would simply look like a rank imposter and a fraud!

And now a gentleman from New York announces the start of a campaign to strip the whiskers off Santa Claus! For the past five years this particular crusader has been waging a battle against men wearing hair on their chests. Today he is seeking new fields of conquest.

"Santa Claus," he asserts, "is the root of the whisker evil. Those of us who are against whiskers have decided to attack the problem at its source. Of all forms of whiskers, those of Santa Claus are the most insidious—because they affect the young."

We believe this crusader is doomed to failure. What would Santa Claus be without whiskers? Like Christmas without trees, or like California without its poppies! Let no razor touch a whisker of the jolly old gentleman!

"WAR IS FUN!"

"War is a fine sport!" announces Vittorio Mussolini, son of the chieftain of Italy, in the recently published account of his adventures when flying over the Ethiopian mountans in a bombing plane.

"War," says young Mussolini, "is a sport that is most beautiful. Everything is fun."

However, there were other participants in the Ethiopian war besides the dictator's youthful offspring. There were the Ethiopian cavalry units, some of whom may have escaped the loads of explosive bombs dropped on them from the skies by fun-loving Vittorio. One of them could doubtless file an effective brief setting forth the case for the negative side.

Nor could war be considered "fun" for the thousands of Bilbao's homeless children, nor for the thousands of horror-stricken Chinese refugees seeking to escape the "pleasures" of war a few weeks ago by stampeding, like mad beasts, to reach the safety of the International Settlement.

And though the small, powerful military clique now holding Japan in a vicelike grip may also argue that war is wholesome sport for all worthy descendants of the samurai, they speak for only a small part of the nation. In thousands of Japanese homes where Field Marshal Death has struck no sorrowing Japanese mother can be found who will agree "War is fne sport!"

We have no doubt that blunt-speakng Second Lieutenant Mussolini thought war was fun. We have no doubt, either, that most Americans will feel that the joke—and not a very funny one—is on him!

FORECASTER IS AGAIN ABROAD IN POLITICAL LAND

Conclusions Of Prognosticators As To Future Congressional Setup Seem To Be Somewhat Ludicrous

The straw vote pestilence is again abroad in the land. The chief of the prognosticating organizations that support themselves by selling their guesses to the newspapers has announced that its survey of the country indicates that the Republicans would gain 46 seats in Congress if the election were held today. This, of course, would leave the poor old Democratic party with a measly total of only something over two to one in the House of Representatives.

That is about as large a party majority as has ever figured in the House, excepting majorities in the present and last Congress. According to this result of fortune telling, the Democrats will lose none west of Illinois, or south of West Virginia—indeed, it forecasts one gain in Dixieland. We are gravely advised that the Democrats will lose one in New England, fifteen in the region comprising New York, Pennsylvania and West Virginia, and thirty-one in Illinois, Indiana and Ohio.

Now we have no fault to find with these figures—beyond the circumstance that we do not believe them, for a variety of reasons. One of these reasons is that with a special session just closed, and a long session to follow, no power on earth can tell a year ahead how the national legislators will stand with their constituents in November, 1938.

It is as though because we had a bright Christmas, that circumstance indicated that it would not rain on the Fourth of July!

One of the minor phenomena of campaigns of this kind is that the astrologers come out of their caves and explain that because of the position of Aldebaran in the heavens and the influence of Arcturas and Betelgeuse on the orbits of the planets Saturn and Uranus, added to the coincidence that Jupiter was overhead at the moment a man was born, makes it certain that that man is going to be elected.

The newspapers print these horoscopes with mock-serious headlines, because they know that there is a smile for their readers in them.

Now, as a newspaper man, I am very much for the straw vote, just as I am for the cross word puzzles and the comic strips, which press readers expect to have added to the mere news of the day, and which are therefore circulation promoters. But these things need not be taken too seriously.

For many years the Literary Digest, with much more machinery and a much wider base in their estimate making, was able to reveal with uncanny accuracy what was going to happen in elections. They wound up in 1936 with a tremendous cropper by proclaiming the election of Governor Landon. They used the same machinery; the same base, and perhaps more expenditure than ever before. It was simply that the setup did not fit the conditions.

The outfit that is supplying the newspapers with pre-election figures now did better than the Digest in 1932. Indeed, if it had not been for the Literary Digest's splash "The American Institute of Public Opinion" would never have had its fine opportunity. In 1936, when the impending landslide seemed plain to every observer, when Chairman Farley was announcing without any qualification that Roosevelt would carry all the states except Maine and Vermont, Dr. Gallup's Institute had so little faith in its own figures that it would go no farther than to assert that if Roosevelt won in every state in which he had the ascendency he would be elected by a handsome majority. But they left in the doubtful column nineteen states, with 219 electoral votes—perhaps as a stepladder on which to climb down in case of necessity.

In the same announcement as that of the forty-six probable Republican gains next year, there is a table illustrating that if the Democrats fail to win i nstates where they won by 56 per cent to 44 per cent last year the Republican gain in Congress would be 76. As they summarize it: "An average shift of 6 per cent in each section would change approximately 76 seats." That is absolutely true. So is it true that "an average shift of 6 per cent" discriminately distributed, would have reelected Herbert Hoover in 1932.

The trend system of these calculations reminds one of a happening in the Northwest long ago. Two young newspaper men went up to Oregon and started a paper. They did not have much money, so they did not feel they could afford to pay telegraph tolls for the weather reports—a matter of concern, naturally, in a farming community. So, every night just before the paper went to press one or the other of these young men would step outside and take a good look at the sky, and then add the ear to the issue by telling the readers what weather was to be expected. They told the story, after they had prospered sufficiently to afford the official reports, that their average was up to that of the government reports.

This editor does not think that the straw poll in question is partisan. But still, as a newspaper man, he realizes that Republican gains make better headlines than "No Changes."

Of course, all this is academic, for, even if the Republicans won forty-six seats, or seventy-six for that matter, the Democrats would still have close to a hundred votes the best of it.

Unfortunately, the poll does not reveal whose seats are in jeopardy, or why, which makes analysis of the presentation rather difficult.

If the result of the elections next November approximates the forty-six guess of today, the prophets will adduce it as further proof of the scientific accuracy of their method of testing public opinion. If, on the other hand, the figures go awry, it will be easy to explain that forty-six was correct at the time, but that a shift has intervened—just as our two Oregon friends used to explain that an unheralded storm in the North Pacific had brought the rainfall of the coming of which they had failed to advise their subscribers.

CHEESE POTATOES

(From Mrs. E. R. Bolger)

4 large potatoes
¼ pound golden rich cheese
1 small onion
1 tablespoon flour
1 sixteen ounce can cream of mushroom soup
1 teaspoon salt
Dash of pepper

Put potatoes, cheese and onion through coarse knife of food chopper. Blend the flour with the mushroom soup, season and add the whole blend to the potatoes and mix thoroughly. Pour into a buttered casserole and bake in a moderate oven (350 degrees) about 1¾ hours or until the potatoes are tender.

TURKEY LOAF

(From Mrs. E. R. Bolger)

½ cup (well packed) coarsely cut celery
½ cup (well packed) coarsely cut carrot
1½ tablespoons minced parsley
25 crisp soda crackers finely crumbed
2 cups turkey pickings
½ cup evaporated milk
½ cup stock or water
1½ tablespoons onion juice
1 teaspoon salt
1 egg

Put vegetables and turkey pickings through food grinder. Scald milk and stock and pour over crackers and add to first mixture. Mix thoroughly, add seasoning and egg. Pour into well greased loaf pan and bake for 35 minutes in hot oven (425 degrees). Turn out of pan and serve either with tomato or cream sauce. Serves 6.

TINY HOLIDAY CUP CAKES

(From Maude L. Pitschke)

½ cup butter
1 cup sugar
Grated rind of 1 lemon
2 teaspoons lemon juice
3 eggs
1 1-3 cups flour
¼ teaspoon salt
1 teaspoon baking powder

Cream the butter and sugar, add the lemon rind and juice, then the yolks of eggs beaten until thick. Sift and add the flour, salt and baking powder mixed well together. Lastly add the stiffly beaten egg whites. Bake in very small well greased pans for about fifteen minutes in a moderately hot oven (375 degrees). These cup cakes, measuring about an inch across, may be frosted with colored icings and decorated with colored sugar and fancy candies.

White Icing

Whites of 3 eggs (well beaten)
1 pound granulated sugar
1 teaspoon baking powder

Whip the sugar into the egg whites. Turn the mixture into the upper part of a double boiler, having cold water in the lower part of the pan. Continue beating until the water boils. Remove from the fire and add the baking powder. Cool quickly. Beat in a teaspoon of flavoring and spread icing on your cakes.

Looking Toward Next Yuletide

From coast to coast there was almost unprecedented activity among organizations, preparing last year's crop of toys for this year's less privileged children, at the best age for enjoying them.

Cleaning and new paint have brought back the first flush of youth to the shining cheeks of dolls grown faded and dusty through the years. Rocking horses now prance with a new fire in their eyes, new paint and a bit of fixing sent many a steed back on the road to romance.

Richmond, Calif., was typical of many communities in which firemen and policemen rejuvenated toys collected from all over town by Boy and Girl Scouts and other agencies. There the firemen were busy for many weeks affixing wigs to dolls, repairing scooters and doing other similar repair jobs in spare moments.

San Bernardino was one of many places in which the National Youth Administration had arranged for this kind of work to be carried on. There, 27 jobless young persons finished the cleaning, repairing and redecorating of more than 3000 toys for distribution among city youngsters who might otherwise have gone unremembered.

The store of Yuletide joy had been assembled by the American Legion and Boy Scouts in a city wide canvass. Supplementing this house-to-house campaign a "toy matinee" was sponsored by the manager of a local theater. Admittance was granted to every child depositing a discarded toy at the door.

Boys and girls, let's save our discarded playthings to help brighten a future Xmas for someone. Shall we make this our New Year resolve for 1938?

Local School Room Decorations Still Used In Hospital

The interesting Xmas motils in the nature of toy soldiers, Christmas trees, candles, Santas and Mickey Mouse, which were made as an art activity and used to decorate the rooms of the Woodrow Wilson School previous to the holiday vacation, are still spreading cheer and joy to the children in the periatrics department of the Franklin Hospital.

At the close of school these decorations, used as a border in the school rooms, were donated to the Franklin Hospital. Nurses at the hospital have now transformed the pediatrics ward into a toyland by the use of these Yuletide motifs made by children in our local school. Certainly, this is a definite form of character training for school children—in giving to less fortunate of the youngsters to cheer them.

Favorable comments have been heard from visitors at the Franklin Hospital, as they have been told by the attendants that the Xmas decorations had been made by Daly City students.

Chemical Engineer Reveals Discovery Of Wonderful Process Of Poinsetta Culture By Experimentation In Obscure Greenhouse

By long experimentation in an obscure Washington greenhouse, Charles P. Madsen, chemical engineer and inventor, claims he has found the way to raise poinsettias with the largest blooms ever recorded in the United States, some over 20 inches across, and how to keep them in healthy condition almost indefinitely in the home. To prove his point he has distributed in Washington about 20 plants, with instructions to care for them according to his method worked out.

The poinsetta was introduced into the United States from Mexico about 60 years ago. Since then this exotic plant has become the most popular Christmas flower.

Few know much of the art of successful poinsettia culture, as it has been carefully guarded, probably because of the flower's great commercial value. The problem intrigued him and, bringing his specialized chemical knowledge to bear, he has obtained amazing results.

He has obtained 400 healthy plants from sixteen parents in a season, when the Department of Agriculture advises that 200 plants is the extreme limit. Temperature, humidity and amount of sunlight were kept under rigid control.

It was believed that September 1 was the extreme limit for taking cuttings that would crown (or flower) for Christmas. His cuttings of October 1 crowned on November 6.

The great trouble with poinsettias in the home is "premature dormancy." Its natural dormant period in Mexico is from March 1 to April 15. This is brought on by the changes in the season. If similar changes occur in the home, the plant reacts to them by going into its dormant (or resting) state.

A drop intemperature below 60 degrees is one factor in changing the plant from the active to the dormant state. The lower the temperature the faster the change. Exposure of ten minutes to a wind of 32 degrees will put it to sleep.

Excessive water in the soil will start dormancy in one day and excessive dryness in about three days. And once the plant starts to sleep, nothing whatsoever can wake it until it has had its nap.

In steam heated apartments excessive dryness of the air draws moisture from the leaves and crown faster than it can be suplied by the roots.

An absolute necessity is to spray the plant with lukewarm water every day.

Usually, Madsen believes, the plant starts going to sleep when in the open air on the way home from the florist shop. Of course under milder Daly City conditions the outdoor atmosphere would not affect poinsettias as much as the colder Washington atmosphere.

So when your Christmas plant begins to droop a few days after receiving it, just let it go to sleep and don't try to wake it up until it gets "good and ready." However a few of the above hints may keep your poinsettia in bloom for a longer period after the holidays.

Hillcrest Circle Meets-Plays Whist

Hillcrest Circle No. 143, United Ancient Order of Druids, met Monday evening of this week. Plans were completed for the reception of Grand Arch Druidess Sadie Meyers and her staff of officers on their official visit, January 10.

The members of the degree team, under the direction of Mrs. Sue Hopman, are practicing for the initiation of a class of candidates.

Several members are reported ill with colds and the flu and we hope for speedy recovery for all.

After the business meeting the regular monthly whist game was played. Mrs. Mary Crane and Mrs Marie Riley were chairmen.

ELECTRICAL GIFTS!

Gifts with a Jingle of Joy!

Coffee Maker—Ah, the aroma of perfect coffee, every time. Smart looking.

Automatic Toaster—No burnt fingers. No burnt toast. Always golden-brown perfection.

Food Server—Three smart glass casseroles keep food hot for "nibble table" meals.

Electric Razor—Ends all shaving muss in the bathroom and sweetens male dispositions.

ISN'T it a grand and glorious feeling to know your gift has been just right? For after all, most of the fun of giving is how well your gift becomes a part of that spirit that makes Christmas the happiest time of all the year.

Electric table appliances truly become part of the holiday spirit. From Christmas to New Year's they are immediately useful for the informal parties that are so much a part of the holiday season.

Holiday parties are fun—even for the hostess—when done electrically, in the modern manner, buffet style. The silent, effortless and low-cost operation of modern electric table appliances make for easier entertaining and happier hostesses.

This year is an electrical gift year. You'll see electric table appliances displayed in all the stores. Make your Christmas gift hunting easier. Buy an electrical gift.

SMALL STATE HAS WITHSTOOD TEST OF TIME

Entirely Surrounded By Italy, But Maintains Its Status Of Independence

The Republic of San Marino, a few miles southwest of Rimini, Italy, is reputed to be the smallest sovereign state in the world. Its area is 38 square miles. For centuries it has stood as an independent little enclave or island, in the Italian peninsula, refusing to be swept under control of princes, bishops, dukes or dictators.

It is entirely surrounded by Italy, but it is not a part of the Italian state. It has devised an ingenious form of government which in itself reveals its people's love of liberty; like the American form of government, it is a system of checks and balances. Instead of balancing the legislative, executive and judicial branches of the government against one another to insure a maximum of individual liberties, San Marino elects two Presidents, or cappitani-reggenti, who serve simultaneously for a term of only six months, and neither of them can do anything of importance without the consent of his colleague. The citizenry are jealous of their age-old privileges.

Independence Stressed

San Marino, Calif., is not a sovereign state, but it forms a separate little island in the city and county of Los Angeles, and its citizenry have just given evidence of an independence which reveals a kinship with their European cousins in the ancient walled stronghold on Monte Titano. The American San Marino has shown in a striking way that it means to be different from its neighbors.

Although it is a close neighbor to Hollywood, the world's film capital, San Marino has indicated that it does not intend to have a motion picture theater within its city limits. It has adopted an ordinance imposing so many regulations upon motion picture theaters that it seems very unlikely any such house could comply with all of them. So Hollywood, which sells its pictures all over the world, even in the sovereign state of San Marino, finds a neighboring municipality turning its back on the Hollywood product, or any other film product.

The reason, of course, is that San Marino desires to remain a strictly residential district, with an absolute minimum of commercialism. The little city feels that it has one big public attraction which is far superior to motion picture theaters, and which attracts the kind of visitors it wants. That is the world-famous Huntington Library and Art Gallery, beautifully situated in a magnificent garden setting.

Hot It Got Name

The American San Marino got its name from its European counterpart in an interesting way. The name came to California by way of Maryland. One John Shorb, son of Johann Shorb, who came to Maryland from Alsace Lorraine in 1741, acquired an estate in Frederick County, Maryland, about five miles from the Pennsylvania border, which had an acreage approximately equivalent to that of the Republic of San Marino.

John Shorb often visited Europe, and it was not surprising that he should give the name of the little European state to its own property. John Shorb's grandson, James de Barth Shorb, came to California in 1867 and was married to Maria Jesus Wilson, who owned most of the property now known as San Marino. The new master of the estate bestowed upon it the name of his grandfather's plantation in Maryland.

BONDS SOLD TO BEST BIDDER

At a special meeting of the city council, Wednesday evening of this week, the bid for Daly City bonds, tendered by Kaiser and Company, was unanimously accepted. This firm will pay $3000, or par, with interest at 3¾ per cent and premium at $6.50.

The Bank of America was the only other bidder, their interest rate calling for 4 per cent.

This sum of $3000 is to be used by the city for the "Colma Area Fire Protection" project, which provides for extension of the fire alarm system to the southern section of the city.

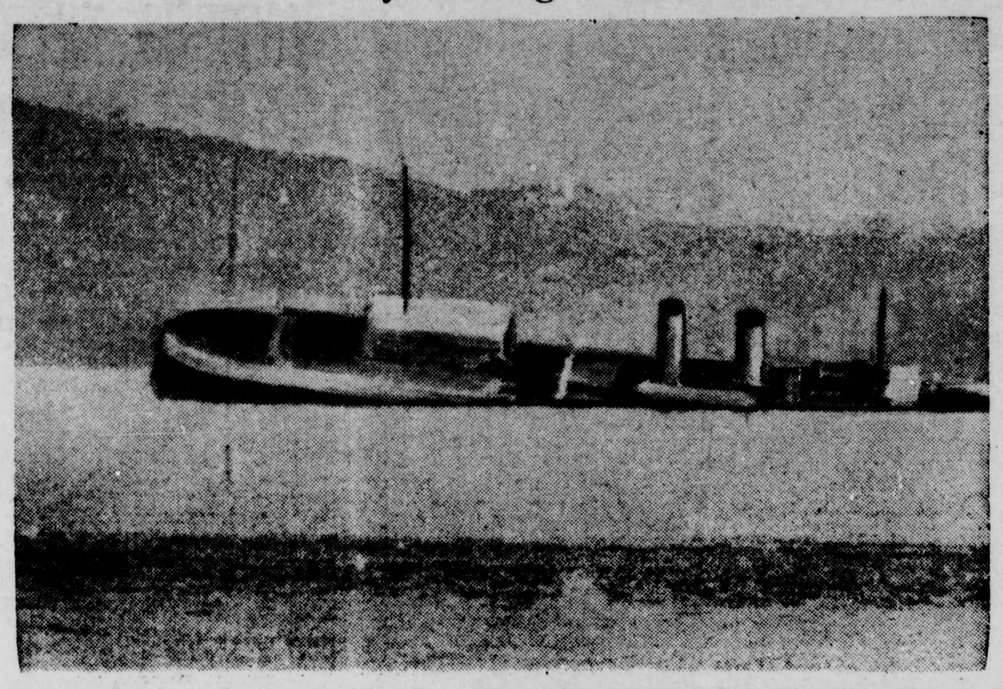

A LITTLE TOO THIN

Sandy's landlady was never very lavish with her helpings at meals, but one day his portion was so small that the Scot looked up: "Haven't you made a mistake?" he asked.

"No," she said. "What's wrong?"

First Photo Of Panay Sinking To Reach United States!

One of the most dramatic photos of the current Sino-Japanese conflict is this picture, which shows the sinking of the U. S. Gunboat Panay. The boat is slowly heeling over to make her final plunge into the depths of the Yangtze River. Note how the masts have been broken off by Japanese aerial bombs, disabling radio equipment. White blotches on fore and after deck are huge American flags painted for identification.

"Happy New Year" Wears Out Books

The editor didn't believe it. But this is how the dispatch from London read:

LONDON—Why does a telephone directory in the public telephone booths of London last six months and in New York, only four days?

Only four days? Impossible! Why, it would take a strong man a week to tear up one of those 45-ounce phone books. The chief of the Monitor's New York bureau couldn't imagine it, either.

So a reporter called the offices of the New York Telephone Company. Then he wrote:

NEW YORK—The career of a telephone directory at several of New York's busiest public exchange booths is two days. . . .

"Look here," stormed the bureau chief. "This can't be . . . "

"That's what they say," replied the reporter. "Forty-eight hours. Of course, that's only in the busiest places, like Times Square, Grand Central Station or the Hudson Terminal. In other booths, they last longer."

"How long?"

"Four days. And that's average."

"Why?"

"They just don't know."

And for that matter, why do telephone books last six months in London? The British Post Office can't answer that one, either.

Beware of too many New Year messages; you'll wear out all the phone books.

ALLEGED ROBBERS HELD TO ANSWER

The preliminary hearing of Thomas Hogan, Richard Perada and Robert A. Malaspina was held in the court of Judge Wade H. Clay, Daly City, at 2 o'clock Thursday afternoon of this week. Hogan and Malaspina were represented by Attorney Harrison W. Call and Perada by Attorney John J. Fahey Jr. The prosecution was conducted by Deputy District Attorney Louis Demattei.

The three young men pleaded not guilty, waiving right to preliminary hearing in Judge Clay's court, whereupon they were held to answer before the Superior Court. The bail was set at $2500 cash or a $5000 bond for each of the defendants.

The three are accused of slugging and robbing a San Francisco bartender after taking him for a "ride" early on Sunday morning, December 20, in Colma. According to County Probation Officer Francis Robinson, at a trial on a previous charge one of the young men was admitted to three years probation, which would have expired next month, but in the present case he has violated his probation.

As the alleged crime was committed outside the Daly City limits, the trio are in the custody of Sheriff McGrath of San Mateo County, and are being held in the Redwood City jail.

TO BE ELECTED

"A man who wants to reach the public ear should learn to express himself in words of one syllable."

"Yes," replied Senator Sorghum; "the promises expected of us make it almost necessary to rely largely on two monosyllables, 'yes' before election and 'no' after."—Washington Star.

Japanese Woman Editor Hopes For End Of The War

Mme. Waka Yamada, editor of Shufu-No-Tomo, the "Ladies Home Journal of Japan," called at the White House to tell Mrs. Franklin D. Roosevelt that mothers of the Orient are united in their hope for a speedy end to the present Sino-Japanese conflict.

Speaking through an interpreter, Mme. Yamad asaid her visit had no political significance, but she merely wanted the President's wife to know that "Japanese women have no hatred against Chinese women."

Mrs. Roosevelt replied that she was sure "mothers in this country would warmly welcome any suggestion that all women throughout the world, particularly mothers, unite to end all conflict." She added that "women, being practical, see it is impossible to eliminate differences between people," but advised them "to work together to find methods to prevent these differences reaching the point of conflict."

DEATH CALLS FORMER DALY CITY RESIDENT

Fred A. La Fortune, a former resident of Daly City and Colma, passed away recently at the Stanford Hospital. Mr. La Fortune was manager for the Safeway Store in Daly City for two years and for the past several years he was a supervisor for the Safeway Stores Inc.

He is survived by his mother, Mrs. Fannie Smith of San Diego; two brothers, Dorrell La Fortune, chief of police of Marysville and Harry Register of South Gate, Calif., respectively; a sister, Mrs. Mabel Ahering of San Diego; three step children, Camille Saradell and Mae and James Anderson of San Francisco.

Remains were forwarded to San Diego for burial.

Mr. La Fortune formerly lived at 198 Moltke street in Daly City.

Pays Judgment In Installments

A man calls at the county court in Manchester, England every month, and hands a penny over the counter. He has been doing this ever since November, 1909, when judgment, in respect of a debt, was given against him in favor of a cycle firm.

The amount of the debt was three pounds, 13s. 6d. and the costs reached one pound, 4s. 6d.

Although the cycle firm went out of businses some years ago, the man has continued payment and the pennies are accummulating in the court's banking account because there is no one to claim them.

So far, the debtor has paid one pound, 8s., so there are another 70 years to go before the debt is liquidated.

In view of the fact that the firm has gone out of business, it is believed that nothing would happen if the man stopped paying. If not claimed, the money will go to the treasury.

Even this long-distance payment was eclipsed recently when the Registrar made an order, which will take 171 years to complete.

The debt in this case amounted to 99 pounds, 12s. 9d., with costs reaching 3 pounds, and the Registrar ordered that payment should be made at the rate of 1s. a month.

EXPIRATION OF LICENSES HELD UP THIRTY DAYS

Time Limit Of Chauffeurs Also Extended Beyond Original Closing Period

Automobile driving licenses expiring during the month of January will be extended automatically for a period of 30 days following the date of expiration, according to announcement made this week by the Department of Motor Vehicles.

The extension is provided in order to permit the department to speed up work of the license plate renewal period, which opens January 3 and closes February 4.

The department also called attention to the fact that chauffeur licenses issued in 1936 do not expire until March 31, 1938, instead of the original date of December 31, 1937.

The chief of the Division of Drivers Licenses said: "All chauffeurs holding 1936 licenses will remain properly licensed up to March 31, 1938. Applications for renewal need not be made until March.

Lesson Sermon Of Christian Science

"Thy way, O God, is in the sanctuary: who is so great a God as our God?" These words from Psalms comprise the Golden Text to be used Sunday, January 2, in all churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "God." Included among the Scriptural selections will be: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou are exalted as head above all" (I Chron. 29: 11).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God. These are His attributes, the eternal manifestation of the infinite divine Principle, Love" (p. 275).

FOR THE DOWN PAYMENT ON YOUR HOME

MODERN, liberal home loan policies of Bank of America and the F.H.A. are enabling thousands of men and women to build their homes with only a relatively small investment. Actually, today you can build a home if you have only 20% of the value of the house and the lot. This means that if you have one-fifth, you may borrow the other four-fifths through Bank of America.

With a thousand dollars or even less you can build a modern small home. Save your "down payment" in a Bank of America savings account.

When you have acquired the down payment you may buy or build the home you want and the money you now spend for rent will meet the easy monthly payments.

MORE FUNDS ARE NECESSARY TO COMPLETE WORK

Plan To Give Tuberculin Tests In High Schools Will Be Hampered Unless Final Goal Is Reached

(Continued from Page 1)

Unless the full amount is secured, the association's plan of giving tuberculin tests to all high school students in San Mateo County cannot be accomplished. But if recipients of the seals cannot remit funds for them, the secretary asks that the seals be returned. In all events, she urges that the brown envelopes enclosed be used for the return to simplify the handling of the funds or seals by the voluntary workers, who are headed by Mrs. John L. McGinn of San Mateo, Mrs. W. F. Higby of Burlingame, and Mrs. Emmett Donnelly of Redwood City. This is particularly desired before budget making time, January 15, but funds will be welcome until March. Of the funds received 75 per cent stays in the county, 20 per cent goes to the state association ,which last year aided the local group to the extent of $1200 (which it does not plan to do this year) and 5 per cent goes to the national association, which furnished the seals and conducts research.

Christmas seals are now sold in 40 nations, Mrs. Close explained as she revealed she had just received a sheaf of the seals used in Denmark. These seals, picturing a hospital bed and carrying the greeting "Julen, 1937," were autographed by Einar Holboll, postal clerk who in 1904 originated the seal idea. His wife, Bertha, autographed a sheaf of American seals sent by Mrs. Close and has returned them.

It has also been disclosed endorsements have recently been received for the seal drive from both the County Federation of Women's Clubs and the San Mateo County Medical Society.

Xmas Trees May Be Hard To Get

The demand of the United States for Christmas trees has reached such proportions as to constitute a serious drain on the young forests of British Columbia.

Members of the Legislature have protested against the action of American concerns in coming here and bargaining with poor settlers for the wholesale cutting of young trees which, if left to grow, would become valuable timber. The Government was surprised at stories of enormous destruction of forests in the interior and on the coast and promised to instruct police to stop this cutting on any government land. It cannot prevent private land owners from cutting their own trees.

The Legislature unanimously approved the Government's new forest conservation program, which increases the amount to be spent on the protection of timber from fire and creates heavy penalties for logging operators who refuse to live up to the regulations set by the forestry service.

Tacoma Publisher Dead From Fall

At Phoenix, Ariz., the coroner announced that a fall in the bath tub was apparently the cause of death of a guest of a local hotel, Christmas night.

The dead man was identified as Robert W. Bender, aged 41, Tacoma, Wash., son in law of the governor of Alaska and publisher of the Juneau (Alaska) Daily Empire.

S. F. Ship Safe After Crashing Reef

With one seaman missing, the badly battered freighter Beulah, a San Francisco owned vessel, limped into Victoria, B. C., recently after she had struck a reef during a heavy storm. The vessel hit the reef while sailing from Puget Sound for the South Sea Islands with a cargo of lumber. Huge waves carried away all but one of her lifeboats. The missing man's name could not be immediately learned.

Court Explains Damage Liability

If you're hurt while traveling in another's car, you can recover damages from the company insuring the car, even though the insurance policy specifically disclaims all liability in such cases.

This was the ruling, in effect, of the United States Supreme Colurt when it denied the petition of the Ocean Accident and Guarantee Corporation for a review of the lower Federal court's decision awarding Rebecca Torres $5,107 damages, dispatches said.

Mrs. Torres sued the insurance company for injuries sustained when she fell off the running board of a friend's car.

The insurance company pointed out, in fighting the suit, that its policy disclaimed liability in such a case.

The Federal court ruled, however, that under California law, the exemption did not hold.

Junior College To Reopen On Monday

San Mateo Junior College reopens classes next Monday, following the Christmas and New Year holidays.

The basketball squad will report for fall practice at once, as Coach Murius McFadden has several practice games scheduled for the immediate future.

The conference schedule will get under way during the spring semester.

AUTO INJURIES PROVE FATAL TO YOUNG MATRON

Local Resident Receives Skull Fracture Attempting To Save Young Son From Falling Out Of Car

The many friends of Mrs. Louise Bricker, 39, of 100 Guttenberg street, formerly residing in Daly City on Hanover street, were shocked to hear of her untimely death, Monday morning of this week. The young matron sustained a basal fracture of the skull when she attempted to save her four year old foster child from falling from a car driven by Jerry O'Connell, 26, 2921 Diamond street, in which Mrs. Bricker and the child were passengers.

The youngster opened the door of the moving car. Mrs. Bricker lunged forward to grasp him as he was falling and she became overbalanced and fell out with the boy, sustaining fatal injuries.

The little fellow escaped with a few scratches.

Mrs. Bricker passed away in Mills Memorial Hispital.

The surviving relatives are the widower, Charles Bricker; a son, Charles; her foster child, Francis Douglas; his father, Dick Douglas, and four brothers—Clinton, Fred, Howard and Irwin Douglas.

The funeral was conducted, Wednesday of this week at 1:30, from a San Francisco mortuary. Interment was in Cypress Lawn Memorial Park.

In his divorce suit Charles Falk of Los Angeles charged that his wife beat him with a shoe.

What! No Goose On Xmas Platter?

The nene, or Hawaiian goose, will be saved from threatened extinction if public and private efforts are successful. The Territorial Government and owners of two ranches are bending every effort to preserve it. The Territorial Game Commission is breeding the bird at its farm. Paul Fagan, owner of a 30,000 acre ranch on Molokai Island, and Herbert Shipment, owner of a large ranch on Hawaii Island, are attempting the same thing.

Principal interest is centered on the Fagan ranch. Four pairs of the nene have been taken there from the Territorial farm, to breed under normal conditions.

The history of the nene is lost. How the bird first reached the islands and where it came from are not known. Scientists are willing to hazard a guess, however, that it originated in Canada, since it somewhat resembles the Canadian wild goose. There are slight differences in size and markings, which might easily be the result of long residence in a changed enviroment.

In Right Church; In The Wrong Pew

A Pocatello, Idaho, couple found themselves locked in the Salt Lake City, Utah, public library, last Sunday evening.

Early that evening they had entered the library to wait for an interstate bus. After sitting for two hours the lights were turned out and the couple found they were locked in the building.

Police, to whom they telephoned by way of the office telephone, soon arrived on the scene and rescued the couple after applying a screw driver to pry open one of the windows.

SAN FRANCISCO MAN HURT WHILE IN SAFETY ZONE

Park Employe Struck Down By Speeding Automobile At Street Intersection Here

Joseph Wagner, 63, of 340 Eddy street, a San Francisco Park employe at Kezar Stadium, was struck by a hit and run automobile about 9:30 o'clock, the evening of Christmas Day, while standing in the safety zone at Templeton avenue on the east side of Mission street.

The injured man was removed in the police car to the Villa Hospital for treatment.

With him at the time of the accident were his wife, Mrs. Dolly Wagner, and her mother, Mrs. Anna Dufour, who obtained the license number of the hit run car.

The number was broadcast over the police radio station. The machine was registered to John L. LaBar of 364 Noe street, San Francisco, who denied having struck anyone. The car was found to have a dented fender.

There has yet been no definite solution of the accident by the police.

HAD NO SHOES

Small Charlotte and her father were riding on a bus, when a man in the seat in front of them took off his hat.

"Oh, look, Daddy," said the child; "that man's head is barefooted."

XMAS PARTY IS GREAT SUCCESS

The Christmas party held by the Catholic Daughters was such a success that the members are still talking about it. They say the credit of it all belongs to Mrs. Christine Michelsen, who purchased all the gifts and candy, and to Mrs. Florence Baumsteiger, who served the mothers with tasty refreshments.

The Secret Pals Club is creating much merriment among the members of the Catholic Daughters of America at Court Saint Mary. Many reports have been received regarding the cards and lovely gifts received from secret pals over the Christmas holidays.

Keep it up girls. There still are a few more months to run before you will be formally introduced to your pal.

S. F. Physician Is Found Dead In Car

The body of Dr. Wilbur Swett, prominent San Francisco physician, was found in his automobile off the Skyline boulevard, near Sharp Park, last Sunday evening. The car had been wrecked.

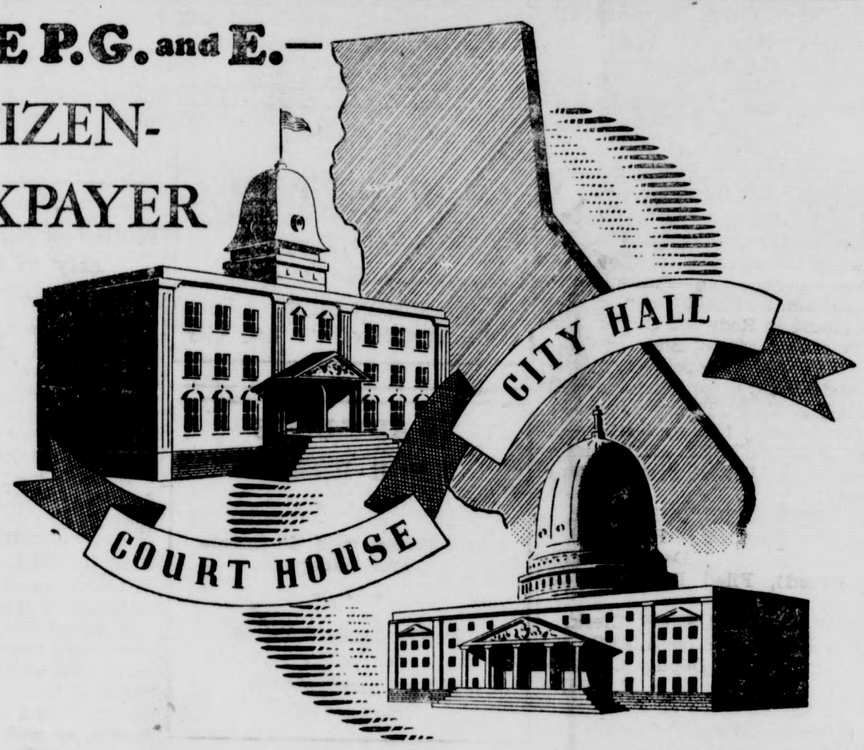

Coroner William Crosby of San Mateo County ordered an autopsy to determine whether Dr. Swett died of a heart attack before the accident or from injuries incurred in the crash.

THE P.G. and E.— CITIZEN-TAXPAYER

Pays $8,371,000 in City, County and District Taxes

Pacific Gas and Electric Company will pay $8,371,000 in local taxes upon its properties for the fiscal year 1937-38. Payment to cities and counties of first installments, aggregating more than $5,500,000, has just been completed.

The Company is the largest taxpayer in California; and the largest also in twenty-five counties served by our lines. In some counties we pay from 50 to 60 per cent of the total taxes collected.

In addition to property and franchise taxes levied by cities, counties and districts, we pay a state corporation franchise tax of $334,000, a tax for the state unemployment fund amounting to $440,000, a sales tax aggregating $402,000 and motor vehicle license and gasoline taxes of about $97,000.

Then there are federal taxes—taxes on income, on sales of electricity for domestic and commercial purposes, on capital stock, on bond interest and for the Social Security fund, all of which bring the grand total of the Company's tax appropriations for 1937 to more than $15,000,000. This is 15 per cent of our entire annual income—$41,000 per day or $1,700 every hour of every day.
